Experience

(2024 - 2025)

DEVOPS ENGINEER

Smartico.ai

- Maintained and improved CI/CD pipelines
- Performed a seamless Git migration from AWS CodeCommit to GitLab, including configuration of CI/CD pipelines and repository permissions
- Developed and deployed an internal web server to centralize and display system alerts, streamlining incident tracking and resolution
- Provided infrastructure support to development teams, acting as the single point of contact for troubleshooting and issue resolution
- Delivered regular AWS cost and efficiency reports to stakeholders, enabling teams to make data-driven decisions on infrastructure planning
- Independently managed website migrations to Cloudflare, handling DNS record updates and ensuring seamless transitions with zero disruption

(2024 - 2024)

DEVOPS ENGINEER

Strypes

- Independently managed the integration and testing of code deliveries, ensuring stability in CI/CD pipelines
- Developed and maintained automated test cases and scripts using Python and Bash, significantly reducing manual QA effort
- Designed and implemented Jenkins pipelines and custom jobs using Groovy, streamlining build and test workflows
- Acted as a primary contact for integration issues, coordinating resolutions across development and QA teams
- Led improvements to internal CI processes and automation frameworks, increasing test reliability and deployment speed
- Provided technical support during releases and maintained build system health across multiple environments

Certificates

- **Code Academy** – C, Python, Linux, Basic BASH
- **Telerik** – DevOps Program

(2022 – 2024)

JUNIOR DEVOPS ENGINEER

Strypes

- Assisted in testing and integrating code deliveries into the build system, ensuring consistency across branches
- Supported developers by reproducing integration issues and contributing to code reviews
- Created and executed test cases to validate software builds and functional requirements
- Helped configure Jenkins jobs and pipelines using Groovy and shell scripts
- Wrote basic test automation scripts in Python and Bash to support QA efforts
- Participated in daily integration monitoring, identifying and escalating build failures early

(2021 – 2022)

SENIOR PAYMENTS SPECIALIST WITH GERMAN

Apex Group Ltd

(2017 – 2021)

PAYMENTS SPECIALIST

AIG / Accenture

- Operated with vast amounts of money on a daily basis, which required excellent attention to detail
- Investigated and resolved customer complaints to foster satisfaction
- Adhered to established policies, procedures and compliance for satisfactory audit rating
- Partnered with cross-functional teams to conduct thorough discovery and due diligence on existing processes

(2016 – 2017)

CLAIMS ADJUSTER

AIG

- Reviewed police reports, medical treatment records and physical property damage to determine extent of liability
- Investigated claims involving potential and suspected fraudulent activities
- Conducted comprehensive interviews of witnesses and claimants to gather facts and information
- Substantiated legitimate claims and denied unjustified claims
- Collected and tracked evidence in support of legal processes
- Examined claims forms and other records to determine insurance coverage
- Tracked progress of all outstanding insurance claims
- Negotiated with claimants to settle claims
